Responsible Minerals Sourcing Policy

Commitment to Ethical Sourcing

Alphi Technology Corporation is committed to conducting business ethically and responsibly across its entire supply chain.

We support international efforts to ensure that the extraction and trade of minerals do not finance or contribute to armed conflict, human rights abuses, or environmental harm.

This policy applies to all products manufactured or contracted by Alphi Technology that may contain tin, tantalum, tungsten, or gold (collectively known as **3TG**).

Compliance with Global Standards

Alphi Technology follows the **OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas** and the principles of the **Responsible Minerals Initiative (RMI)**.

We require our suppliers to:

- Source only from smelters and refiners that are **RMAP-conformant** or actively participating in the **Responsible Minerals Assurance Process (RMAP)**.
 - Exercise due diligence on the origin and chain of custody of 3TG in accordance with the OECD Guidance.
 - Provide complete and accurate **Conflict Minerals Reporting Template (CMRT)** or **Extended Minerals Reporting Template (EMRT)** data when requested.
-

Supply Chain Due Diligence

Alphi Technology conducts due diligence on its supply chain to identify smelters and refiners associated with our products.

We work closely with our suppliers to promote transparency and responsible sourcing practices.

If a supplier is found to be sourcing from smelters that are not conformant with RMAP or equivalent third-party audits, Alphi Technology will take corrective actions, which may include reevaluating the business relationship.

Continuous Improvement

We are committed to continuous improvement in our responsible sourcing program. Alphi Technology reviews this policy annually and updates its practices to reflect evolving industry standards and regulatory requirements.

Suppliers and stakeholders are encouraged to contact us regarding responsible minerals sourcing at:

Email: Info@alphitech.com
